Horticultural Exhibition. Sept. 19, 1866.—The annual exhibiciety, which takes place next Tuesday afternoon and evening at Breed Hall, bids fair to be successful. The exhibition of fruit and flowers will probably be one of the finest ever seen in this vicinity. How the apples will come out we can not tall but there come out we can not tell, but there will be something worth seeing in grapes and pears, although the crops have had some drawbacks this season. The display of vegetables this season will be very large and super-ior. The amount awarded in prem-iums is \$200, and those members of the society who exhibit here will be able to remove their contributions to the county fair on Wednesday morning, thus competing in both fairs.

The evidence which the two night

The robbery was not discovered until Thursday evening, when Miss Remsen found her purse empty. It had lain on her dresser and contained a \$5 bill and a small amount of change. A further investigation in rooms on the second floor led to the discovery of the theft of a small amount of change from the room of Mrs. R. D. Remsen and a collection of dimes in a roll. It is believed that the total amount of cash stolen will exceed \$10.

Although Mrs. Remsen noted several chairs in her room disturbed when she returned home Tuesday evening, the dresser decorations were not disturbed and there was nothing to arouse her suspicions that the house had been robbed. She did not give the changed position of the chairs a thought until the absence of the money from her purse was noted.

Members of the police department assigned to investigate the breaks, are bending every effort to run the mysterious burglar to earth. The finding of so many articles of jewelry, ivory and diamonds, leads the police to believe the houses were entered in quest of cash. The amount obtained, how-
